

# 1275 ALMAPLEX® INDUSTRIAL LUBRICANT

COMMODORE MARINE SERVICE, INC., Portage Des Sioux, MO

Innovative Material System Model 4010 • SIC 9999 Nonclassifiable establishment

**1275 Saving \$4,290.00 Annually!**

### CUSTOMER PROFILE

Commodore Marine Service, Inc located along the Mississippi River has been in business for 10 years, dredging harbors and lakes throughout the Midwest.

### APPLICATION

The dredging machine at their location is an Innovative Material System Model 4010 with a 270 hp Cummins Engine.

### AREA OF INTEREST

The cutter head for this machine operates completely under water 10 hours a day while the dredging takes place. They have tried all types of greases for the cutter head and nothing has been satisfactory for the severe conditions.

### LE SOLUTION

The local LE Representative recommended LE's 1275 ALMAPLEX® Industrial Lubricant. LE's 1275 is an excellent general purpose EP lubricant for industrial or fleet use. 1275 contains ALMASOL®, LE's exclusive wear-reducing additive. It is very effective in severe operations caused by moisture and high temperatures. LE's 1275 seals out dirt and water and prevents corrosive wear.

### CUSTOMER COST SAVINGS

The prior lubricant was LPS—Therma Plex Aqua NLGI II priced at \$9.00 per tube. Due

Innovative Material System Model 4010 with 270 hp Cummins Engine to

the severe conditions they were using 2 tubes a day. Operating under the same conditions only 1 and 1/2 tubes of LE's 1275 is needed **per week!**

#### Previous Product

260 days X 2 tubes X \$9.00 = \$4,680.00

#### LE's 1275

52 Weeks X 1 1/2 tubes X \$5.00 = \$390.00

If Commodore Marine Service, Inc. operated 260 days per year this would be a savings of: **\$4,290.00 annually!**

Mr. Russell Cissell, owner of Commodore Marine Services says, "The 1275 from Lubrication Engineers is the best grease we've ever used in this application. It works and it lasts!"

We would like to thank owner Mr. Russell Cissell and the local Sales Representative for the information provided to prepare this report.

Based on actual user experience. Individual results may vary. Product used not intended to supersede manufacturer's specifications.
