

**CUSTOMER TESTIMONIAL**

**2410 BTU<sup>+</sup> Total Treat**  
**Saint Ann Transportation, Inc., Fort Ann, NY**  
**Tractors • SIC 4212 Local Trucking**

**CUSTOMER PROFILE**

Saint Ann Transportation, Inc. is a small trucking company servicing the Northeastern United States. They utilize a number of over the road trucks in their fleet.

**APPLICATION**

They operate various over-the-road tractors.

**AREA OF INTEREST**

During the winter of 1998-1999, Saint Ann Transportation suffered numerous problems with diesel fuel gelling. This resulted in expensive service calls to get the trucks running again, as well as being late for pick-ups and deliveries.

**LE SOLUTION**

LE Lubrication Consultant David Healt recommended 2410 BTU<sup>+</sup> Total Treat. **LE's 2410 cleans fuel pumps, injectors, and combustion chamber; lowers pour point and cold filter plug point; improves fuel lubricity; retards microbial growth; provides more complete combustion.**

**CUSTOMER COST SAVINGS**

In the fall of 1999, Saint Ann Transportation decided to give 2410

BTU<sup>+</sup> Total Treat a try. **For the past eight winters they have not experienced a single problem with fuel.** The BTU<sup>+</sup> Total Treat is added directly to the bulk fuel tank at the terminal.

General Manager Richard Foran states, "BTU<sup>+</sup> has definitely saved us a lot of money. We just don't have cold weather problems anymore like we used to. If we eliminate a few service calls per year, that more than pays for the cost of the BTU<sup>+</sup>".

**OTHER PRODUCTS USED**

- 960 Waterless Hand Cleaner Towels
- 2059 MONOLEX<sup>®</sup> Penetrating Oil & Lubricant
- 3752 ALMAGARD<sup>®</sup> Vari-Purpose Lubricant

We would like to thank the General Manager, Richard Foran and LE Lubrication Consultant David Healt (pictured) for providing the information used to prepare this report.

Based on actual user experience. Individual results may vary. Product used not intended to supersede manufacturer's specifications.
