

**3752 ALMAGARD® VARI-PURPOSE LUBRICANT  
5182 PYROSHIELD®**

**JESS TRUCKING COMPANY, Fremont, CA  
Nine Peterbilt Trucks • SIC 4213 Trucking, Except Local**

**CUSTOMER PROFILE**

Jess Trucking Company is a nine rig common carrier hauling for the State of California. They are located in Fremont, CA. They have been an LE customer since 1990.

**APPLICATION**

Mike Bettencourt has used many commercial and specialty products as a chassis lubricant on his nine Peterbilt trucks.

**AREA OF INTEREST**

These specialty greases were pounding out and washing out, requiring frequent relubrication.

**LE SOLUTION**

Several years ago it was recommended that Mike Bettencourt, Owner/Operator, try LE's 3752 ALMAGARD Vari-Purpose Lubricant as a general purpose grease for the fleet. LE's 3752 is a multifunctional, extreme pressure (EP) lubricant for extended service under extreme conditions. It can be used in all types of vehicles, as well as in many other applications. It is very tacky, has excellent water resistance, will not pound out and is rust and corrosion inhibited.

LE's 3752 contains LE's proprietary additives ALMASOL® and QUINPLEX®.

**CUSTOMER COST SAVINGS**

Over the years Mike Bettencourt has been very pleased with the performance of LE's 3752 ALMAGARD Vari-Purpose Lubricant. When it was recommended that he use LE's 5182 PYROSHIELD to protect the fifth wheel on these trucks, he was confident that it would perform. Before switching to LE's 5182 the fifth wheel was requiring relubrication once a week.

Using LE's 5182, the fifth wheel requires greasing only once every three weeks.

LE's 5182 PYROSHIELD is a revolutionary extreme pressure (EP) lubricant that was developed for applications in the most severe service. It is ideal for fifth wheels and various other sliding mechanisms which operate in harsh environments and it contains ALMASOL®, LE's exclusive wear-reducing additive. Mike Bettencourt said, "LE's 5182 is so tacky I broke a putty knife putting it on."

**OTHER PRODUCTS USED**

Mike Bettencourt also uses LE's 2300 L-X® Heavy-Duty Chemical Supplement in his personal vehicles.

We wish to thank Mike Bettencourt, Owner/Operator, and LE Representative Ben Yeatts (pictured) for the information provided to prepare this report.

Based on actual user experience. Individual results may vary. Product used not intended to supersede manufacturer's specifications.
