

3752 ALMAGARD® VARI-PURPOSE LUBRICANT
COUNTY OF LACKAWANNA TRANSIT SYSTEM, Scranton, PA
Ford F350 Short Bus • SIC 4111 Local & Suburban Transit

CUSTOMER TESTIMONIAL

3752 ELIMINATED BALL JOINT AND TIE ROD FAILURES

CUSTOMER PROFILE

The County of Lackawanna Transit System (COLTS) serves the city of Scranton, PA and surrounding areas of Lackawanna County.

APPLICATION

COLTS operates Ford F350 short buses for elderly and handicapped transport.

AREA OF INTEREST

While using a commercial grade lubricant, COLTS was experiencing several ball joint and tie rod failures per year.

LE SOLUTION

The local LE Lubrication Consultant recommended 3752 ALMAGARD® Vari-Purpose Lubricant. LE 3752 is a multi-functional EP lubricant for extended service under extreme conditions. It is very tacky, has excellent water resistance, will not pound out, and is rust and corrosion inhibited.

CUSTOMER COST SAVINGS

Since the conversion to LE's 3752 ALMAGARD® Vari-Purpose Lubricant 2½ years ago, there has been no ball joint or tie rod failures and no showing of any significant wear.

Manager Dave Sklareski stated, "Since we switched to LE 3752 on our F350 short buses, we have not had any failures in 2½ years."

Lubrication Engineers Inc. would like to thank Manager Dave Sklareski and LE Lubrication Consultant Kevin Chapin for providing the information used to prepare this report.

Kevin Chapin

Based on actual user experience. Individual results may vary. Product used not intended to supersede manufacturer's specifications.
