

3752 ALMAGARD® VARI-PURPOSE LUBRICANT

IDEAL CONCRETE PRODUCTS, BURLINGTON, IA

Besser Block Machine • SIC 3273 Ready-Mixed Concrete

CUSTOMER TESTIMONIAL

CUSTOMER PROFILE

Ideal Concrete Products manufactures concrete block and brick. They have been an LE customer since 1995.

APPLICATION

To manufacture the concrete block and brick, they utilize a Besser block machine.

AREA OF INTEREST

While using a commercial grade grease, Ideal Concrete Products was losing one bearing per month in the vibrator of the Besser block machine. These bearings cost \$120 each and require two hours to install.

LE SOLUTION

The local LE Representative recommended LE's 3752 ALMAGARD Vari-Purpose Lubricant for this application. LE's 3752 is a multi-functional EP lubricant for extended service under extreme conditions. It is very tacky, has excellent water-resistance and will not pound out of the application. LE's 3752 contains ALMASOL® and QUINPLEX®, LE's proprietary additives, and is rust and corrosion inhibited.

CUSTOMER COST SAVINGS

Since switching to LE's 3752 ALMAGARD Vari-Purpose Lubricant, Ideal Concrete Products has experienced only one bearing loss in over 2 years!

Savings on Bearing Cost Alone for One Year

Lubricant	No. of Bearings	Cost Each	Totals
Previous Lubricant	12 @	\$120.00	\$1440.00
LE's 3752	1 @	\$120.00	\$120.00
LE Saves			\$1320.00

We want to thank Randy Burgus, Manager and the local LE Representative for providing the information to prepare this report.
