

# 4025 QUINPLEX® FOOD MACHINERY LUBRICANT

OLD WAVERLY GOLF CLUB, WEST POINT, MS

Jacobson Mowers • SIC 7997 Membership Sports & Recreation Clubs

**4025 WILL NOT WASH OUT OR EMULSIFY WHEN  
IN CONTACT WITH MOISTURE**

**CUSTOMER TESTIMONIAL**

## **CUSTOMER PROFILE**

Old Waverly Golf Club, located in West Point, Mississippi, is an eighteen hole championship golf course rated by the PGA as the most challenging in Mississippi. Designed by Jerry Pate and Bob Cupp, Old Waverly was chosen as the host of the 1999 U.S. Women's Open Championship.

## **APPLICATION**

Old Waverly Golf Club has a wide variety of grounds equipment for mowing and maintaining the fairways, greens and surrounding property.

## **AREA OF INTEREST**

Chief Mechanic, Mark Barkes, was concerned with the commercial grade lubricant that was being

used, running out or dripping on greens and fairways, and as a result, leaving small coin sized marks where the grass was killed or burned. Mark was looking for a product that would withstand the trying conditions to which his equipment is exposed. Examples are: very hot temperatures of a Mississippi summer, damp and wet conditions during or after rains and equipment wash-downs, dust and dirt during dry periods, and constant impact loads.

## **LE SOLUTION**

The local LE Representative recommended 4025 QUINPLEX Food Machinery Lubricant. LE's 4025 is white in color and water resistant. **It resists high temperatures, clings to metal, is rust and corrosion inhibited, mechanically stable, and contains antimicrobial agents.**

**LUBRICATION  
ENGINEERS,® Inc.**

## **CUSTOMER COST SAVINGS**

Old Waverly Golf Club is very impressed by the performance of LE's 4025 QUINPLEX Food Machinery Lubricant. The main benefit experienced by Waverly, is that it won't wash out or emulsify when in contact with moisture. They are also impressed with LE's 4025's resistance to "pound

out" or "sling off" in high impact areas. Because of this performance, Waverly is using LE's 4025 in all of their equipment.

## ***OTHER PRODUCTS USED***

6602 LOW TOX<sup>®</sup> Hydraulic Oil is used in all greens mowers.

We wish to thank Lead Mechanic/Maintenance Supervisor Mark Barkes, Purchasing Manager Barry Foster and the local LE Representative for the information provided to prepare this report.
