

4622 MONOLEC® MULTIPLEX LUBRICANT

MECHANICSBURG SAND & GRAVEL, Mechanicsburg, OH

Cat 980 Loader • SIC 1442 Construction Sand & Gravel

4622 HAS GOOD MECHANICAL STABILITY, A HIGH DROPPING POINT, CORROSION RESISTANCE AND EXTREME PRESSURE PERFORMANCE.

CUSTOMER PROFILE

Mechanicsburg Sand & Gravel is located in Mechanicsburg, Ohio. They are a sand & gravel operation that services all of southwestern Ohio. They have been a valued LE customer since 1985.

APPLICATION

One of their hardest working pieces of equipment is a Cat 988 loader, used for loading gravel into the trucks, or moving it to other designated areas within their operation.

AREA OF INTEREST

Although Mechanicsburg Sand & Gravel was not experiencing any severe problems with the current competitive product they were using, they were interested in extending their grease relubrication intervals. They also wanted a grease that would pump easier in the winter weather.

LE SOLUTION

John and Jim Cushman of Mechanicsburg Sand & Gravel tested LE's 4622 MONOLEC Multiplex

Lubricant in the Cat 988 loader. The 4622 was left outside 24 hours a day for approximately a month. The temperature during this period ranged from 0°F to 32°F and it often rained, sleeted and snowed.

CUSTOMER COST SAVINGS

While using LE's 4622 MONOLEC Multiplex Lubricant, during this month, Mechanicsburg Sand & Gravel stated that LE's 4622 pumped very easily in cold weather. LE's 4622 also stayed in the bucket pins very well providing excellent lubrication to the 988 loader.

Mechanicsburg Sand & Gravel was very impressed with LE's 4622 and intends to purchase it for year-around use. They have purchased their first drum and are using it in conveyor system bearings.

OTHER PRODUCTS USED

Mechanicsburg Sand & Gravel also uses LE's 607 ALMASOL® Vari-Purpose Lubricant, 2300 L-X® Heavy-Duty Chemical Supplement, LE's 452 ALMASOL® Chain & Cable Lubricant and LE's 8800 MONOLEC ULTRA® Engine Oil.

We wish to thank John and Jim Cushman of Mechanicsburg Sand & Gravel and LE Representative Tom Valentine (pictured) for the information provided to prepare this report and also for field testing LE's 4622 MONOLEC Multiplex Lubricant.

Based on actual user experience. Individual results may vary. Product used not intended to supersede manufacturer's specifications.
