

6602 LOW TOX[®] HYDRAULIC OIL

ELMHURST COUNTRY CLUB, Elmhurst, PA

Hydraulic Reel Mowers • SIC 7997 Membership Clubs

LE's 6602 is a low toxicity hydraulic oil with a dvanced product technology

CUSTOMER PROFILE

Elmhurst Country Club is located in the Pocono Mountains of Pennsylvania and is regarded as one of the most challenging golf courses in the Scranton, Pennsylvania area. They have been in business for twenty-five years and an LE customer for fifteen of those years.

APPLICATION

Elmhurst Country Club operates various hydraulic reel mowers, which are used to maintain the turf on the fairways and greens of the golf course.

AREA OF INTEREST

The customer was having a problem with the competitive hydraulic oils killing the grass on the course when leakage or hose failure occurred. When this happened expensive re-sodding was applied to the area causing the grass to look burnt for several months before it finally grew back.

LE SOLUTION

LE's 6602 LOW TOX Hydraulic Oil was recommended due to the minimal environmental impact of the oil.

CUSTOMER COST SAVINGS

When leakage occurs while using 6602 the grass is only discolored for two to three days. A specific dollar amount saved can not be figured because large spills could cost thousands of dollars. John Zombec, Chief Maintenance Mechanic, says, **"Systems are operating great and we only change oil once a year during the winter maintenance."**

OTHER LE PRODUCTS USED

- 1275 ALMAPLEX[®] Industrial Lubricant
- 607 ALMASOL[®] Vari-Purpose Gear Lubricant
- 3752 ALMAGARD[®] Vari-Purpose Lubricant

We wish to thank John Zombec, Chief Maintenance Mechanic and LE Representative Kevin Chapin (pictured) for the information provided to prepare this report.

Based on actual user experience. Individual results may vary. Product used not intended to supersede manufacturer's specifications.
