

## **6602 LOW TOX<sup>®</sup> HYDRAULIC OIL**

**Sodus Bay Heights Golf Club, Sodus Point, NY**

**Jacobsen Greensking Mowers • SIC 7997 Membership Sport & Recreation Clubs**

### **CUSTOMER PROFILE**

Sodus Bay Heights Golf Club is a semi-private club located on the South shore of Lake Ontario in upstate New York. They have been in business since 1924 and an LE customer since 1998. Steve Boone is the Golf Course Superintendent.

### **APPLICATION**

Sodus Bay Heights has three Jacobsen Greensking IV mowers used for mowing greens, tees and fairways.

### **AREA OF CONCERN**

Sodus Bay Heights is an upscale semi-private course with members that demand tournament conditions throughout the season. They are located on the shore of one of the largest bodies of fresh water on the earth. Soil and or ground water contamination is simply not an option. They were looking for an oil that would not permanently damage the soil in the event of an oil spill or leak.

### **LE SOLUTION**

LE Representative Don Wilkens recommended 6602 LOW TOX<sup>®</sup> Hydraulic Oil. LE's 6602 is a low toxicity hydraulic oil with advanced product technology. It performs equivalent to premium hydraulic fluids, yet has low ecotoxicity for environmental concerns. 6602 has a low order of toxicity compared to standard commercial hydraulic oils and biodegradable hydraulic fluids.

### **CUSTOMER COST SAVINGS**

Sodus Bay Heights experienced a hydraulic hose blowout on one of their greens that resulted in a major spill covering an area approximately 100 square feet. The grass was damaged and turned brown. Instead of digging up the soil, they were able to re-seed right over the damage because there were no residual effects from the oil. In a matter of a few weeks, the area was almost completely healed.

Superintendent Steve Boone stated, "Although there was damage from the leak, I feel that we were able to make repairs in a much shorter time period and there was no concern for contamination."

We would like to thank Golf Course Superintendent Steve Boone and LE Representative Don Wilkens for the information provided to prepare this report.
