

6804 MULTILEC® INDUSTRIAL OIL

R.I. LAMPUS CO., Inc., Springdale, PA

Paco Traveling Car • SIC 3271 Concrete Block & Brick

CUSTOMER PROFILE

R.I. Lampus Company, Inc. is the largest manufacturer of cement block in the Pittsburgh area. They have been in business for 80 years, and an LE customer since 1995.

APPLICATION

R.I. Lampus Company uses Paco traveling cars to transport the newly formed block (which are formed in the Besser block machine) to the drying kiln. The cars also move cured block from the kilns to the Paco cubers.

AREA OF CONCERN

On hot summer days, the Paco car's hydraulic oil would overheat causing erratic and sluggish operation. Bags of dry ice would be applied to the top of the hydraulic oil tank in an attempt to cool the oil.

LE SOLUTION

LE Representative Larry Boyle recommended 6804 MULTILEC® Industrial Oil. LE's 6804 is multi-functional, heavy-duty rust and oxidation inhibited and anti-wear oil for air compressors, hydraulics, bearings, pumps and gear applications. It has great lubricity and excellent water separation ability.

CUSTOMER COST SAVINGS

Since the conversion to LE's 6804, the unit's hydraulic oil was cooled by

The unit's hydraulic oil was cooled by 30°F

30°F. Pump and oil leakage problems subsided. The Paco traveling car operates in a much more trouble free state.

A contractor was in the plant one day. He noticed an LE oil drum and inquired as to what it was – he had never heard of the brand. The Plant Maintenance Superintendent Andy Olczak informed him that the oil cost around \$10.00 per gallon. The fellow told Andy he was crazy spending that kind of money on oil when he could get it much cheaper elsewhere. Andy told him about all the problems LE oil had corrected. Andy then asked him, "now that you know the facts, which oil is the cheaper one to use?"

OTHER PRODUCTS USED

- 604 ALMASOL® Vari-Purpose Gear Lubricant – Teco mixers
- 607 ALMASOL® Vari-Purpose Gear Lubricant – Sew Eurodrive gearboxes
- 6405 MONOLEC® R&O Compressor/Turbine Oil – Dodge gearboxes
- 3751 ALMAGARD® Vari-Purpose Lubricant – Besser block machine
- 6110 MONOLEC® Hydraulic Oil – Paco cubers

We would like to thank Andy Olczak, Butch Pavik and LE Representative Larry Boyle for the information provided to prepare this report.

Based on actual user experience. Individual results may vary. Product used not intended to supersede manufacturer's specifications.
