

7500 MONOLEC® POWER FLUID

TRANSPORTATION MANAGEMENT, INC., Grand Rapids, MI

Ford E350 & E450 • SIC 4119 Local Passenger Transportation

7500 – NONFOAMING IN SERVICE & REJECTS WATER!

CUSTOMER PROFILE

Transportation Management, Inc. provides door-to-door transportation 24 hours a day, 6 days a week for handicapped and disabled passengers in metro Grand Rapids, Michigan.

APPLICATION

The passenger fleet consists of 1998–2002 Ford E350's and E450's with Ford E40D transmissions.

AREA OF INTEREST

Due to stop and go city driving, by many different drivers, they were looking to use a higher quality fluid to extend the life of the transmissions. The commercial grade lubricant they were using was getting burned and causing transmission breakdowns.

LE SOLUTION

LE Representative Steve Axtell recommended 7500 MONOLEC Power Fluid. LE's 7500 is for combination gear-hydraulic systems, hydraulic transmissions, wet brakes, and torque converters. It is

nonfoaming in service and rejects water.

CUSTOMER COST SAVINGS

Drain intervals have been established between 45,000 and 50,000 miles and oil samples show LE's 7500 still protecting the transmissions. The trucks have run 1.9 million miles without any major repairs or loss of transmissions. The average truck has approximately 100,000 miles.

OTHER PRODUCTS USED

- 703 MONOLEC® Gear Lubricant
- 3752 ALMAGARD® Vari-Purpose Lubricant

We would like to thank Fleet Manager Dave Himstra and LE Representative Steve Axtell (pictured) for the information provided to prepare this report.
