

8130 MONOLEC® ULTRA-BLEND ENGINE OIL

OLIVE GLENN GOLF & COUNTRY CLUB, Cody, WY

Jacobsen Fairway Mower • SIC 7997 Membership Sports & Recreation Clubs

CUSTOMER PROFILE

Olive Glenn Golf & Country Club is a beautiful 18-hole golf course located in Cody, WY. They have been an LE customer since 1994.

APPLICATION

They use a Jacobsen Fairway Mower, model LF 100 that operates approximately eight hours per day, seven days per week.

AREA OF INTEREST

Gary Wheeler, Golf Course Superintendent, wanted a hydraulic and engine oil that would meet and exceed the manufacturer's requirements. He also wanted oil drain intervals to be at least three times normal to allow operation through the golf season without the need to change any fluids.

LE SOLUTION

LE Representative, Mike Carter, recommended LE's 8130 MONOLEC® ULTRA-BLEND Engine Oil 10W-30 for use in the engine as well as the hydraulics. LE's 8130 is made from select synthetic and paraffinic oils for all-weather performance and exceeds performance requirements. It also contains MONOLEC®, LE's exclusive wear-reducing additive.

CUSTOMER COST SAVINGS

While using the commercial engine oil, the mower could only go 100 hours before

Drain Intervals from every 100 hours to every 300 hours!

needing an oil change. *With LE's 8130, the engine oil drain intervals are now 300 hours.* The hydraulics on the unit were being changed out at 300 hours; *using LE's 8130, they are now changed at 1,000 hours.* *After 900 hours of operation, the new operator did not observe a hose leak. Subsequently, the hydraulic system was completely drained of fluid and the operator continued to mow for about 30 minutes. Upon discovering the leak, the machine was allowed to cool down, the hose was replaced. The oil analysis report reveals little or no wear. The personnel of Olive Glenn Golf & Country Club attributed this lack of damage to LE's quality lubricants (oil analysis on back).*

OTHER LE PRODUCTS USED

- 2300 L-X® Heavy-Duty Chemical Supplement
- 3752 ALMAGARD® Vari-Purpose Lubricant
- 6801 MULTILEC® Industrial Oil
- 7500 MONOLEC® Power Fluid

We would like to thank Gary Wheeler, Golf Course Superintendent and LE Representative, Mike Carter (pictured) for the information provided to prepare this report.
