CURTIS PACKING CO., Tifton, GA
Trucking Fleet • SIC 2011 Meat Packing Plants

**EXTENDED OIL DRAIN INTERVALS • REDUCED WEAR •
SLASHED REPLACEMENT PART VOLUME**

CUSTOMER TESTIMONIAL

CUSTOMER PROFILE

Curtis Packing Company is a meat processing and institutional foods company based in Tifton, Georgia, servicing the Southeastern United States. They have been an LE customer since 1986.

APPLICATION

Today's food supply requirements push plant and trucking to maximum limits. To meet those demands Jerry Branch and his partners wanted a lubricant package that would deliver the highest protection and value. Jerry and his partners have a processing plant, warehouse and a fleet of trucks.

AREA OF CONCERN

They were looking for quality lubricants that would extend drain intervals, reduce downtime due to less maintenance, and protect their valuable investments.

LE SOLUTION

Jerry chose to protect his fleet with LE's 8530 MONOLEC® SPB™

Engine Oil and 8800 MONOLEC ULTRA® Engine Oil. LE's 8530 is a gasoline engine oil made with a blend of synthetic and paraffinic base oils. LE's 8800 is for heavy-duty, long-drain service in diesel and gasoline engines. Both LE's 8530 and LE's 8800 improve fuel efficiency, reduce wear and provide all-season, all-weather performance.

CUSTOMER COST SAVINGS

Jerry says LE saves thousands of dollars annually. They have extended oil drain intervals, reduced wear and slashed replacement part volume.

Jerry is so pleased with LE products he states; "I also use LE lubricants in all my personal vehicles".
