

**8800 MONOLEC ULTRA® Engine Oil  
FRED ROSS, Colonial Heights, VA**

**1993 Sierra Pickup • SIC 8811 Private Household**

**“LE’S 8800 SAVED MY ENGINE!”**

**CUSTOMER PROFILE**

Fred Ross has purchased Lubrication Engineers®, Inc. products since 1993. He saw LE lubes in action as a Maintenance Superintendent at a large municipality maintenance shop. He put trust in LE to protect several large pieces of equipment the city depended on greatly. It only made sense that trust carried to his own personal vehicles.

**APPLICATION**

Fred Ross owns a 1993 Sierra Pickup Truck. He purchased the vehicle new in 1993.

**AREA OF INTEREST**

Being a mechanic Mr. Ross knows the importance of taking care of his investments; providing his truck with the best protection he can.

**CUSTOMER EXPERIENCE**

Since the initial break in of the vehicle, LE’s 8800 MONOLEC ULTRA® Engine Oil has been in his truck. LE’s 8800 provides the most desired features and benefits for heavy-duty service in diesel and gasoline engines. Through a

unique formulation available only from LE, 8800 offers exceptional service.

During a routine oil change at his brother-in-law’s automotive shop the drain plug was not properly tightened. Several days later Mr. Ross’ change oil light appeared on his dashboard. Knowing full well he had just had the oil properly changed he dismissed it. He continued to drive the vehicle for a week before curiosity took over and he looked under the hood. He found nothing on the dip stick, the plug was indeed loose but no oil in the pan. Mr. Ross tightened the plug and put in 5 quarts and continued to drive normally with no ill effects.

During this experience or to date, Mr. Ross has never experienced knocking, smoking, and still gets 20 miles to the gallon.

Fred Ross truly feels the protection of LE’s 8800 in his engine saved him the cost of a new one at an estimated \$2,500.00.

Mr. Ross says, *“I’m very glad I have LE’s 8800 in it! It saved my engine!”*

We would like to thank LE customer Fred Ross and Lubrication Consultant Dave Smith (pictured) for the information provided to prepare this report.
